Congratulations on launching your job search! We want to support you in the best way possible during this period of your career. We have designed a tool that will help you track the things you are doing to find your next job. And if you have opted into the Career Services Commitment, this will help you adhere to the Commitment.

This Job Search Tracker, which your coach will create for you, will help you keep track of these things on a weekly basis:

Full Stack Coding Bootcamp - Full Time :

- Make contact with at least 8 specific individuals at prospective employers within the field matching your program of study
- Post at least 5 GitHub commits per week to your public GitHub profile
- Post at least 1 technical blog post per month on a public URL that can be verified by Developers Institute

Full Stack Coding Bootcamp - Part Time :

- Make contact with at least 8 specific individuals at prospective employers within the field matching your program of study
- Post at least 1 GitHub commits per week to your public GitHub profile
- Post at least 1 technical blog post per month on a public URL that can be verified by Developers Institute

We are requiring that you maintain this tracker on your job search progress.
